

3600 Series All-Ceramic Toilets and Bidets

Stylish European Design, Flush and Forget® Operation

3600 Series fixtures combine the beauty and convenience of premium all-ceramic finish with the advanced engineering of Dometic's VacuFlush® sanitation systems.

3606, 3609 & 3648 VacuFlush® Toilets:

Flush and Forget® Operation – Electronically-timed mechanism and proven flush valve assure easy operation and thorough flush every time.

Electronic Push-button Flush – Attractive, wall-mounted “Flush” and “Add Water” switches for easy operation.

Standard and Low-profile Height Models – Install luxurious style anywhere.

Easy-to-clean Surface – Smooth ceramic finish for easy cleaning and lasting beauty.

Choice of Flush Switch Panel – Both styles fit standard panels.

Vimar panel, gray (white available)

Gewiss panel, gray only

3601 Bidet:

Complements 3600 Series Toilets – Maintains Euro-styling throughout the bath.

Over-the-rim Faucet Design – Accommodates faucets designed for single-hole punch fixtures.

3626 Toilet/Bidet Combination:

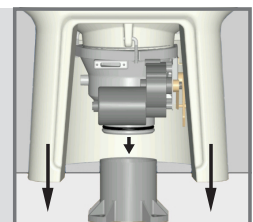

VacuFlush® Toilet with Flush and Forget® Operation – Electronically-timed mechanism and proven flush valve assure easy operation and thorough flush every time.

Temperature-controlled Bidet Wash – Provides optimum user comfort.

Low-profile Design – Can be installed in virtually any marine bath.

Toilet and Toilet/Bidet “Plug-in” Installation –

Ceramic toilet and motorized base are preassembled and install easily into mounting adapter.
