

Model A516S Shown

**REMOTE DISPLAY**

Allows you to monitor critical conditions of operation and execute fresh water flushes.

The Aquamiser Plus Series offers programmable settings and remote display capability through an advanced control system. This full-featured affordable solution is ideal for smaller water production needs. With outputs of 250-1800 GPD the Aquamiser Plus Series will provide the safety and controls needed to operate both dependably and efficiently. The Aquamiser Plus is available in framed and modular configurations to be utilized in tight spaces and bulkheads. However, despite its small size, the expansive controls include a fully automatic Fresh Water Flush System for unattended maintenance. Scheduled flushes, once a week or every two weeks, will help maintain and keep your watermaker fresh and ready for your next voyage.
